EXPERIENCE

Cyber Operations Student Researcher & Intern

Jul. 2026 – Aug. 2026

Massachusetts Institute of Technology (MIT) Beaver Works Summer Institute (BWSI)

Cambridge, Massachusetts

- 1 of 29 students selected nationally for the highly competitive MIT BWSI 2026 Cyber Operations program.
- Engaged in rigorous, hands-on coursework and labs, with topics including cryptography, networking, reverse engineering, AI/ML, digital forensics, and side-channel analysis.
- Developed skills in digital forensics, networking, cryptography, systems architecture, vulnerability analysis, and defensive security through project-based learning and a capstone cybersecurity event.

Hackathon Competitor & Winner

Jul. 2026

Massachusetts Institute of Technology (MIT) Beaver Works Summer Institute (BWSI)

Cambridge, Massachusetts

- Built "Operation Black Vault", a browser-based cybersecurity escape-room CTF that turns learning into an interactive mission, with "Brilliant Be4vers" team for MIT BWSI Cyber Operations Hackathon 2026.
- Players solve hands-on cybersecurity challenges while navigating a simulated digital environment. The project is designed to make cybersecurity engaging by adding gamification, problem-solving, and practical security concepts.

CTF Team Co-Captain & Competitor

Jun. 2026

BoroCTF 2026

Dallas, Texas

- Competed in a 810+ team & 1620+ participant live international CTF competition under a team named "idktheflagbro" with 2 other teammates.
- Solved cybersecurity challenges across OSINT, forensics, web exploitation, cryptography, binary exploitation, networking, reverse engineering, and GEOSINT using Kali Linux, security frameworks, and AI-assisted analysis.

Director of Volunteers & Community Volunteer

Sep. 2024 – Present

Friends of the Carrollton Public Library

Carrollton, Texas

- Assisted for 60+ hours and led a group of volunteers in community service activities.
- Supported weekly library operations by organizing and sorting books into boxes, maintaining shelves and storage, delegating tasks, and collaborating with volunteers to ensure an efficient workflow.

PROJECTS

Operation Black Vault (1st Place Winning Project) | *CSS, HTML, JavaScript, React, Git, Vercel*

Jul. 2026

- Co-developed a web browser-based CTF platform with 20 interconnected challenges covering OSINT, digital forensics, cryptography, steganography, reverse engineering, binary exploitation, web security, and Linux.
- Collaborated in a 4-person team to architect, implement, test, and deploy the platform using Git and Vercel.
- Project awarded 1st Place at the MIT BWSI Cyber Operations Hackathon 2026.

Personal Portfolio Website | *HTML, CSS, JavaScript, Google Fonts, Git, Vercel*

Aug. 2026

- Developed a personal portfolio site to showcase projects, experience, resources/write-ups, and achievements.
- Architected, implemented, tested, and deployed the platform using Git and Vercel.

EDUCATION

Hebron High School

Carrollton, Texas

Senior (Grade 12) – GPA: 3.95/4.0 – Foundations of Cybersecurity, Digital Forensics, AP CSA

2023 – Present

AWARDS & HONORS

1st Place Winner – Cyber Operations Hackathon 2026

Jul. 2026

Massachusetts Institute of Technology (MIT) Beaver Works Summer Institute (BWSI)

Placed Top 4% & Top 11% HS Division (Co-Founded CTF Team)

Jul. 2026

BoroCTF 2026

AP Scholar with Distinction Award

Jun. 2026

The College Board

National Recognition Program — School Recognition Award (2026)

Jun. 2026

The College Board
